Dear Rutgers University,

On behalf of the New Jersey Department of Health, Vaccine Preventable Disease Program, we would like to congratulate you on being a recipient of the 2024-2025 New Jersey Influenza Honor Roll! You were one of the five recipients to receive Top Honors this year.

Flu vaccination is important for everyone, especially to protect those at high risk of serious flu complications. This includes very young children, pregnant women, individuals 65 years of age and older, and those with certain long-term medical conditions like asthma, diabetes, or heart disease. Thank you for prioritizing public health by promoting flu prevention.
